

Business
Broadband

One month
FREE trial

Wireless internet designed to keep your business one step ahead.

With AIT business broadband your company will get the fastest possible speeds - even at the busiest times.

Packages from just £32 a month

We provide high speed, reliable internet from our Nottingham data centre. We use cutting edge wireless technology providing fast, low latency connections.

Broadband prices, lease line performance

Our purpose built network meaning you share the network with fewer customers. This gives you better upload and download speeds.
